FOR IMMEDIATE RELEASE
AAMCO Jacksonville is Making Miracles Happen

On December 22, a miracle took place for several local families in downtown Jacksonville along the river at the Jacksonville Landing..... all thanks to AAMCO's 10th Annual Transmissions "Cars for Christmas Giveaway Celebration".

In the holiday spirit of giving, 8 area Jacksonville AAMCO Transmissions Centers & leading Jacksonville Radio stations came together to award 6 cars in order to improve the lives of local residents facing tough economic times & difficult financial strains. Many people submitted their nominations & a lucky few were chosen.

Dawn, one of the winners, stated "I am shocked! I am smiling through tears..... I am so grateful.....I cannot express how much this means and how much easier, better, safer and SANER this will make my life. THANK YOU so much for hearing our cry for help. You have taken a hard time where we were struggling and made this THE luckiest and most blessed Christmas we've ever had."

Conceived in Jacksonville, in 2002, the "Cars for Christmas" concept quickly spread to AAMCO Transmissions owners across the country leading to hundreds of families having their lives dramatically improved with the awarding of good quality transportation provided by the owners and staffs of AAMCO Transmissions all over our nation.

Dean Black, President and spokesperson for the local AAMCO Transmissions owners states, "By the end of this year's campaign, your area AAMCO Transmissions owners will have awarded over 60 cars to families in need, right here in our local community – that's well-over \$200,000 worth of cars, trucks and vans since 2002 when we started the AAMCO Transmissions Cars for Christmas charitable program.....And now we're proud to present our new "**We Care Repair**" charitable initiative in partnership with **Daniel Kids Foundation**. Together, American citizens and companies can help each other through these difficult times."

AAMCO Transmission's new "We Care Repair" program is now underway & making a huge positive impact for neighbors truly in need. Through Daniel Kids Foundation, carefully selected local, worthy families needing car repairs they cannot afford will have their vehicles repaired at no cost through the "We Care Repair" program provided exclusively through local AAMCO Transmissions shops.

Anyone wanting to learn more about the "We Care Repair" program can do so at any area AAMCO Transmissions or by contacting Daniel Kids Foundation at 904-296-1055 or online at DanielKids.org (website).

Questions can also be directed to Dean Black, President and spokesperson for the local AAMCO Transmissions owners, at 904-262-2900.

About AAMCO:

For nearly 50 years AAMCO has been a trusted name in servicing the automobile needs of their local communities. AAMCO's skilled mechanics use state-of-the-art diagnostic equipment to ensure quality repairs on everything from transmission diagnosis, repair, service and maintenance to oil changes, tune-ups and services that will keep automobiles in warranty.
